

WORKING EXPERIENCE

NirJai Technologies Pvt. Ltd., Delhi, India	September 2025 - Present
Backend Developer and Architect — Quanted Query (Financial Market Analytics Platform)	Website
- Architected the entire backend — FastAPI, Supabase, LMDB, Redis, RabbitMQ, Neo4j — powering AI-driven market exploration through natural language via agentic RAG and multi-model LLM orchestration. - Spearheaded a full-scale overhaul of an 18,000+ line monolith into a production-grade domain-driven architecture with centralized services, custom exception hierarchy, and fail-fast validation — zero downtime, zero regression. - Drove critical infrastructure decisions: database consolidation, feature-flagged Neo4j knowledge graph, isolated Redis for auth, containerized deployment, and contributor guardrails for safe parallel development.	
Backend Developer X Team Lead — Aztute (Enterprise Workflow Integration Platform)	Website
- Owned end-to-end delivery of 3 mission-critical integrations — DocuSign, eFax, Microsoft Teams Calendar (bidirectional sync) — into a live Angular/.NET/SQL Server platform under aggressive demo deadlines. - Engineered the .NET integration layer from scratch — REST/webhook orchestration, OAuth lifecycle management, real-time callbacks, and intelligent calendar conflict resolution. - Led rapid team execution — defined API contracts, built reference implementations, enforced quality through PR reviews — delivering all 3 integrations from zero to live demo for client go-forward decision.	
iOS Developer — Koyozo	Website
- Architected production iOS gaming platform with GameController framework, SwiftUI/MVVM, two-tier caching (NSCache + disk) with background prefetching — reducing load times by 70% and API calls by 80%. - Led cross-platform expansion to Android post iOS launch, maintaining feature parity for 10,000+ console users.	
Software Developer — Navstar Shipping (USA)	Website
- Delivered enterprise B2B shipping platform in 2 months (450% faster than expectations), integrating FedEx & USPS RESTful APIs and real-time tracking via Tive IoT webhooks across 50+ routes. - Engineered scalable backend using Zoho ecosystem (Creator, Flow, Books) — orchestrating full SDLC from requirements to deployment with end-to-end client ownership.	
Codevidhya India Pvt. Ltd., Jaipur	March 2025 - August 2025
Intern – Software Engineer Associate	Website
Enhanced LMS portal with responsive HTML/CSS/JS features for 5,000+ students; improved Node.js/Express.js backend, boosting performance by 30% and cutting response time by 40%.	

PROJECTS

College Website	Official Students Website
Led development of static students website from scratch as team lead, collaborating with government officials for newly established IIIT Raichur—now serving 1,000+ students as official digital representation. Tech Stack: HTML, CSS, Bootstrap, JS.	
Examy	Github
Built an automatic programming assignment judge with plagiarism detection using Moss algorithm, embedded Monaco code editor, and Docker containerization for secure test execution. Tech Stack: Python, Django, Docker, JS.	
Recommendation System	Github
Developed NLP-based movie recommendation engine using TMDb with Word2Vec embedding and cosine similarity, achieving 85% accuracy in predictions. Tech Stack: Python, NLTK, Scikit-learn.	
SkyBar	
Created a cloud-based photo management system inspired by Google Photos with album creation, secure sharing, and automatic thumbnail generation. Tech Stack: React.js, Django, MongoDB, AWS S3.	

EDUCATION

B.Tech in Computer Science and Engineering, IIIT Raichur CGPA: 7.51/10 (2020-2024) Class 12th: 96% Class 10th: 96.17%

TECHNICAL SKILLS

Languages	Python, JavaScript, C++/C, SQL, Java, Swift, CUDA, Solidity-Ethereum
Frameworks & Tools	MySQL, MongoDB, ReactJS, NodeJS, Django, FastAPI, Git, Zoho, Firebase, Docker, Redis, Neo4j
Others	RAG/LLM Integration, RESTful APIs, Webhooks, Blockchain, ZK-Proof, NLTK, iOS/Android Dev

VOLUNTEER EXPERIENCE

Teaching Assistant, IIIT Raichur (Sep 20-Jun 24) — Mentored 200+ students in Programming, Data Structures, Algorithms, & Probability. General Secretary, IIIT Raichur (Oct 2022 – Oct 2023) Website Team Master, IIIT Raichur (Jul 2021 – Sep 2022) Cultural Secretary, IIIT Raichur (Jan 2022 – Sep 2022) PR & Social Media Team Master, IIIT Raichur (Mar 2021 – Mar 2024)
